Dhahran

Saudi

Date Of Birth: 19/01/2000

AbdulazizAltamimi

Highly motivated cybersecurity engineer at Aramco with proven experience of administrating Operation technology systems seeking a challenging career with a progressive organization where I can leverage my experience to architect and design cybersecurity solutions to uplift the overall cybersecurity posture.

EDUCATION

Information Systems

King Abdulaziz University , Jeddah, Saudi Arabia

Sep 2018 - Jun 2023

GPA: 4.41 Out of 5 as Second Honor

TECHNICAL/PERSONAL SKILLS

- Computer Networking and Cyber-Security
- Data Analysis
- Programing and Applications development

PROJECTS

Drone Scanning and Tracking System

Collaborated with colleagues to implement a scanning and tracking system using a DJI drone and WI-VI technology developed by MIT.

Security Intervention for Alexa Voice Assistant

Created a more secure voice user interface to prevent the collection of sensitive personal information from users via malicious third-party applications.

SaudichatGPT Hackathon

Developed a stock ticker software that automatically generates a PDF report, providing insights on the stock and its investment potential.

Tuwaiq Capture The Flag Competition

LANGUAGES

Excellent level of English Reading, Writing, and Verbal communication.
Arabic(Native).

WORK EXPERIENCE

Cyber Security & Systems Engineer

Aramco, Saudi Arabia

Oct 2023 - Present -

- Identifying and assessing vulnerabilities in OT systems and networks, and implementing risk mitigation strategies.
- Ensuring that OT systems adhere to best practices, laws, and industry standards.
- Implementing and managing security monitoring tools and techniques to detect anomalies and potential threats in real-time.
- implementing patches or other corrective actions as necessary after regularly inspecting OT environments for vulnerabilities.
- Controlling user access and permissions for OT systems to guarantee that only individuals with the proper authorization can access critical systems and data.
- Ensuring that cybersecurity measures are successfully integrated into both IT and OT environments by strong collaboration with IT departments and OT engineers.
- Maintaining detailed documentation of security measures, incident responses, and system configurations, and reporting on security status and incidents to management.
- Staying updated with the latest cybersecurity trends and threats, and continually improving security measures and practices based on emerging threats and technologies.

Cyber Security Engineer

WiSys, Saudi Arabia

Aug 2023 - Oct 2023

- Supported assessors/auditors in data security assessments.
- Worked on network scanning and vulnerability analysis reports.

Global Training Initiative

North Carolina State University, United State

Jul 2022 - Aug 2022

- Worked in a project which protected end user information in Alexa Voice assistant
- Participated in various workshops with NC State and international students.

TECHNICAL TRAINING - CERTIFICATES

Project Management

Harvard

Oct 2024

Cisco Certified Network Associate (CCNA)

Aramco, Saudi arabia

Sep 2024

Splunk Fundamentals

Saudi Aramco, Ras Tanura

Jul 2024

COM116 Plant Cybersecurity Training

Saudi Aramco, Dhahran

May 2024

Tripwire IP360, CCM, and SIH

Saudi Aramco, Dhahran

Apr 2024

Security+

CompTIA

Mar 2024

Certified Associate in CyberSecurity

Fortinet

Nov 2023

Second Honor Certificate

King Abdulaziz University, Jeddah

2023

NSE-1 Certified

Fortinet

Aug 2023

NSE-2 Certified

Fortinet
